**GUIDED MISSILE AND ASTRONAUTICS INTELLIGENCE COMMITTEE**

6 August 1975

MEMORANDUM FOR: Lieutenant General Samuel V. Wilson, USA,  
Deputy to the DCI for the Intelligence  
Community

SUBJECT : Annual Reports and Evaluations of  
Committee Progress

REFERENCES : (A) D/DCI/IC memorandum (DCI/IC-75-2052),  
subject as above, dated 22 July 1975  
  
(B) Chairman, GMAIC memorandum, subject,  
"Proposed Weapons and Space Systems  
Intelligence Committee," dated  
4 February 1975

1. A DCI-approved LOI does not yet exist. Reference (B), in anticipation of the possible amalgamation of GMAIC and certain elements of the SIC, proposed an LOI as well as a charter for the new committee. The LOI (attachment B of reference (B)) remains essentially as stated except as noted in paragraph 3. below. The LOI from reference (B) is enclosed for your convenience. I have reviewed the FY 1975 KIQ strategy reports which are expected to continue into FY 1976, as well as the NIO/SP's list of FY 1976 KIQs which form the principal basis for my directing GMAIC efforts.

2. Because of the uncertainty of the future of GMAIC, SIC, WSSIC, etc., I have not drafted a new LOI. Any adjustments required to the due dates stated in the enclosed LOI can be discussed in my meeting with you. You will note that the specific instructions in paragraph 3. of the LOI address GMAIC areas of responsibility. If a new committee is formed with increased responsibilities, additional instructions will be necessary.

3. Following are known changes to my proposed LOI of a few months ago.

a. Re paragraph 3.b. (FY 1976 KIQ 8 concerning ICBM accuracy determination). I was tasked by the NIO/SP on 31 July 1975 to produce an annex for NIE 11-3/8-75 by 1 September 1975.

b. Re paragraph 3.c. (FY 1975 KIQ 14 concerning SLBM accuracy). This study is underway. Analytical problems are causing delay. The completion date cannot be predicted until we determine the extent of these problems.

c. Re paragraph 3.g. A report has been published by GMAIC, subject, "Current Gaps in Our Knowledge of Soviet Spacecraft Systems," dated March 1975, in response to a D/DCI/IC request.

d. Re paragraph 3.h. GMAIC's ASTP intelligence support to NASA ended upon termination of the joint portion of the flight in mid-July.
